AIIMS like institutions

1263. SHRI SANTOSH BAGRODIA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) what is the current status with regard setting up of six regional centres of AIIMS in different parts of the country;

(b) whether his Ministry has any proposal under their consideration to declare some important State Government hospitals as "Centres of Excellence" on the line of AIIMS and extend financial assistance to them to make them "State of Art" research of regional hospitals;

(c) if so, the details thereof; and

(d) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) The State Governments have provided a minimum of 100 acres of land. The work of construction of boundary wall around all the sites has been completed. WAPCOS is conducting Environmental Impact (EIA) Study and pre-construction survey of the sites of AIIMS-like institution. Pre-Construction survey would be completed at all sites by end of March, 2007.

Bids received for selection of Project Consultant for setting up six AIIMS-like institutions turned out to be unresponsive/could not secure minimum qualifying marks at the technical stage. Hence, the bids were rejected. Subsequently, the offer received from the prize winning firm for development of Architectural Concept/Design has also been rejected due to high price quoted by them. It has, therefore, been decided to call for bids separately for each of the six institutions and to separate housing component which is proposed to be built through EPC (Engineering, Procurement and Construction) developer on turnkey basis. Expression of Interest (EOI) has been issued on 9.2.2007 for providing EPC services. As regards the construction of medical college and hospital complex, EOI issued on 15.2.2007 for preparation of concept design, detailed project report (DPR) and site specific RFP separately for each site. It is proposed that the request for proposal in both cases for shortlisted bidders would be issued in April, 2007.

(b) to (d) Under PMSSY, it is proposed to strengthen 13 existing Medical College Institutions in terms of infrastructure and equipments. The Government of India is investing of Rs. 100 Crores for each institution and the State Government's share is Rs. 20 Crores and subsequent recurring, maintenance and manpower costs. In respect of SVIMS, Tirupati, the TTD trust is bearing half of the cost *i.e.* Rs. 60 Crores, and the GOI share is only Rs. 60 Crores. Likewise, in respect of IMS (BHU) Varanasi, which is

a GOI institution, Rs. 20 Crores is being provided by Ministry of Human Resource Development.

The upgradation exercise has been initiated for the above institution. The Central Technical team has visited all the institution, for gap analysis and assessment of requirement. The upgradation broadly envisages strengthening the existing departments, through procurement of equipments. It is also proposed to build a Super Speciality Block, Nursing College, OPD etc. for many of the institutions. The upgradation work would be carried out in phases. Most of the equipments for existing departments are proposed to be procured in 2007-08. Civil construction work for new building for most of the institutions is expected to be completed by 2008 and 2009. Equipment required for these buildings would be procured accordingly.

Experience required for ASHA

1264. SHRI GIREESH KUMAR SANGHI:

SHRI SANTOSH BAGRODIA:

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) what is the minimum professional qualification and experience required for the Accredited Social Health Activists (ASHA) under the NRHM;

(b) what is the minimum and maximum number prescribed for the ASHA per panchayat under the NRHM;

(c) what steps have been taken for the skill upgradation of ASHA; and

(d) how many ASHA activists have been covered under skill upgradation programmes?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) ASHA should be a literate woman with formal education up to eight class. This may be relaxed only if no suitable person with this qualification is available.

(b) The general norm is one ASHA for 1000 population. In tribal, hilly, desert areas the norms could be relaxed to one ASHA per habitation, depending on her workload.
